Managed Multi-carrier Services

Multi-carrier shipping made simple – with GFS by your side

Managing multiple suppliers can be complex and time-consuming. But there is another way.

With GFS Managed Multi-carrier Services you can:

- Access **1,000+ carrier services** to **220+ worldwide destinations**
- **Integrate multi-carrier technology** for tracking, labelling, reporting and more
- Get **specialist delivery advice** and carrier advice
- Take advantage of **end-to-end parcel management**, resource planning and business contingency

All through one integration, one invoice and one single relationship.

MANAGEMENT

We've got your back every step of the way...

We are here to help you save time, reduce overheads, maximise customer satisfaction and avert risk. GFS Managed Multi-carrier Services comes with:

Access to in-depth delivery expertise

Our experienced Account Managers are on hand with ongoing advice and solutions. Our international development team is committed to helping you grow your business in new markets.

GFS Operations for contingency and peak management

With our own fleet of vehicles, we're ready to step in with practical logistics support to protect the customer experience at all times.

Proactive parcel management

Our Customer Care team pro-actively tracks and monitors parcels to spot and solve parcel problems before they impact the end customer.

Global returns platform

Our self-service returns portal enables customers to choose from **200+ global returns services** or select an alternative to exchange.

Single collection service

We can collect all your parcels at one time, for any combination of carriers and inject parcels directly into the carrier network.

Optimised global delivery

GFS International is our own dynamic international delivery service that matches the best and most cost-effective carrier service to each parcel.

Streamline despatch and gain delivery insights with Enterprise Carrier Management

Our value-added Enterprise Carrier Management (ECM) System optimises every stage of the delivery journey through a single integration. With ECM, you can view and manage parcel labels, tracking, queries and performance metrics via a secure online portal.

Key systems include

GFS Seeker

Our parcel management portal enables track and trace across all carriers, capturing proof of delivery and GPS location.

GFS Selector

Automated multi-carrier labelling and parcel routing with address validation.

GFS Reporter

Review and analyse delivery data across all carriers and locations at a glance.

Why customers work with GFS

As the pioneer of Enterprise Carrier Management, GFS is at the very forefront of the industry. Our customer proposition is unique, and includes:

- **Expertise and experience**
We've been managing parcels since 2001 and have more than 30 million parcels under our care each year
- **Scale and resource**
Our carrier partnerships and own network of vehicles and warehouses provides niche solutions and additional capacity when needed
- **Responsiveness**
We are just one phone call away
- **Competitive pricing**
As one of the biggest buyers of carriage in the UK we have extensive buying power that we can pass on to our customers
- **Technology**
We were the first to bring Enterprise Carrier Management to market and are committed to the continual development of our delivery technology
- **Global capability**
We deliver to more than 220+ countries with technology to simplify Taxes & Duties and Customs documentation
- **Flexibility and contingency**
We pull out all the stops to protect the customer experience at all times
